Print Wizard self-weeding heat transfer printing systems allow you to decorate and customise an extensive range of printable products at exceptional quality and speed - including textiles, garments, wood, metal, glass, ceramics and a whole lot more - setting a new benchmark in the transfer printing industry.

Passion into Profit

Turn Your Hobby into a Business with:

- low cost set-up
- high earning potential
- quick and easy production
- no maintenance
- high flexibility
- product reliability
- all supported by a company that is a technical expert in textile decoration

Earning Potential

Print only 25 t-shirts per week and earn in excess of £1,000 per month!

- blank products from local suppliers at trade prices
- up to 80% mark-up
- only 2-hours per week printing dark garments using two-step papers
- only 1-hour per week printing to light garments using one-step papers

A World of Applications

Print Wizard Systems can be transferred to all kind of materials, such as textiles, wood, metal glass and ceramics, attracting a wide range of target markets including:

- sportswear / leisurewear - sports, football, bowling, rugby, darts clubs
- childrenswear / babywear - schools, nurseries, small local businesses
- workwear - retail, catering, corporate, local trades
- gifts - craft/souvenir shops, stationers, homeware
- awards - plaques, glass trophies

Print Wizard: Start-up Business in a Box!

The transfer printing process couldn't be easier:

- #1** Print to either A4 or A3 transfer paper
- #2** Transfer the toner to the pressing foil
- #3** Press to the garment or product using heat

It's that simple!
